Awards for:

Best Cactus.

Best Succulent.

Most points in show (silver Keith Grantham medal), runner-up in show (bronze Keith Grantham medal).

The Maritime Centre is very easy to find: A19 to A189 to B1334 – and the centre is at the end of that road.

Most people would park in the general car park and walk 30m or so (also disabled access) to the centre.

People showing plants will be expected to take the parallel road on to the promenade (see red arrow below) and to turn north (left) to the end where there is a loading bay on the left.

After unloading, please use the public car park.

The excellent on-site restaurant will be available all day for drinks, snacks and meals. Golden sands 5 m away.
